

:: Brushless Power Torque Electric Screwdrivers

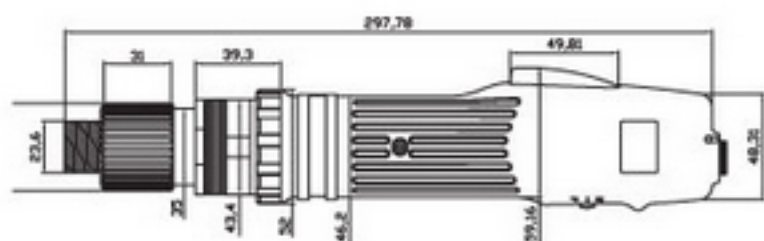

NAME: Brushless Power Torque Electric Screwdrivers

MODEL: SKD-RB60P / SKD-RB90P / SKD-RB120P / SKD-RB180P

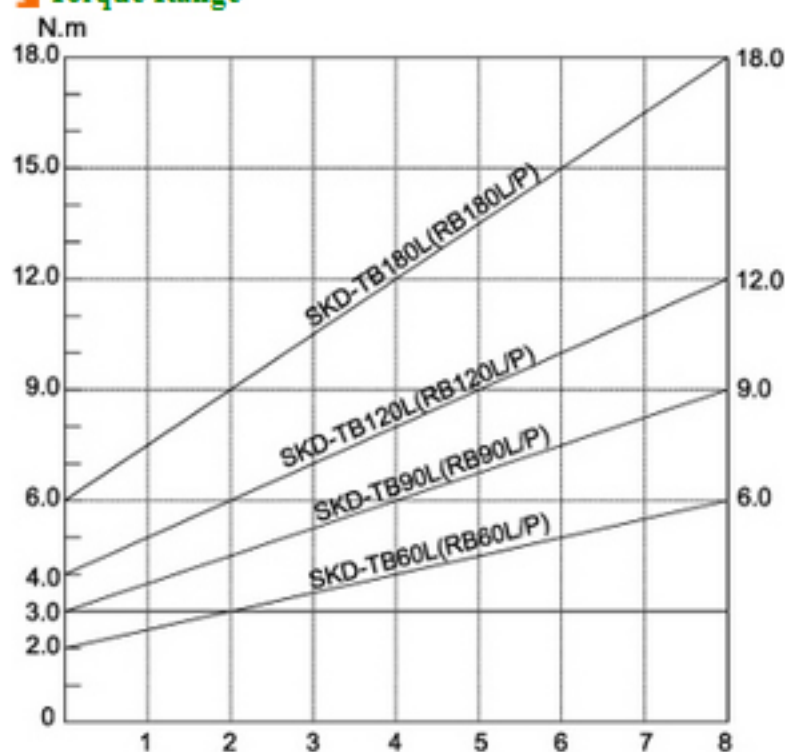

Product Description

- Whole series use brushless motor, no carbon pollution, low noise motor operation. It is the best fit for assembling high torque products.
- Assemble large-sized LED/LCD panel and home appliances. The tool can be hung with spring balancer to lessen work fatigue.
- RB torque range is from 20~180 kgf.cm, and the stable torque output with great precision can replace pneumatic screwdrivers - unstable torque, grease-polluted, and noise-polluted.
- RB type must be collaborated with Auxiliary Arm KP-AUXA which can increase stable torque output, torque precision, and easier to operate, RB type series are most applied to assemble large products on automatic production line.
- Highly mobile, easy to operate, stable torque, high efficiency. The motor can be free from fatigue under long-working hours.
