

NAME: Kilews Torque Meters

MODEL: KTM-10 / KTM-100 / KTM-50S

▼ **Product Description**

- The torque meters KTM-100, KTM-10 are directly produced by the manufacturer **KILEWS**® in Japan, authorized by Kilews Industrial Co., Ltd. by ODM. Each product will be provided with an Adjustment Certificate and one year Warranty in normal using.
Take Note! These measuring instruments could not be applied in testing the pneumatic screwdriver products and prohibited in measuring the torque exceeding maximum measuring range of torque meters.
- LED can identify the test range of torque set by needed user. if the result is not complying to set torque range, light will be warned.
- USB 1.0 connector is only used for data output; it is convenient for user to work with computer.
- Auto-zero can be selected and zero reset becomes unnecessary for user.
- Automatically test values about maximum and mean.

Model No.		KTM-100	KTM-10	KTM-50S
Measuring Range	Kgf.cm	1.5-100.0	0.15-10.00	0.5-50.0
	N.m	0.15-10.00	0.015-1.000	0.049-4.9
	Lbf.in	1.5-90.0	0.15-9.00	0.5-4.9
Accuracy		Within ±0.5%		
Power Supply		1.2V battery*5		
Charging Time		Within 8 hours		
Continuous Operation At Full Charge		About 30 hours		
Battery Life		Rechargeable 300 times or more		
Dimension	mm	123*230*65(H)		
Weight	kg	2.8		
Special Charger		Input AC 120V, 220-240V Output DC 7.2V 120mA		
Accessory		Torque measuring adaptor*2 SJ-10/ SJ-50	Torque measuring adaptor*2 SJ-3/ SJ-10N	Torque measuring adaptor*1 J-50S

● SJ-50; SJ-10; SJ-10N; SJ-3; SJ-50S
Torque test base
